2. Selection procedure, stages and criteria

The Heinrich Böll Foundation's selection procedure for scholarship applicants consists of **three stages**:

- 1.1 **Stage 1:** Submission of **written application documents**, including a personal reference on your social commitment and an expert reference from a university lecturer or, in the case of new students - a schoolteacher via an online portal www.boell.de/scholarships. Two staff members from the Studienwerk and from another department of the Heinrich Böll Foundation decide whether the application will be forwarded to the second stage.
- 1.2 **Stage 2: An interview with a liaison lecturer**, usually at the place of residence of the liaison lecturer in Germany, by telephone or digitally.
- 1.3 **Stage 3: Digital interview with 3 to 4 selection committee** members, including 1 to 2 external members, one scholarship holder and one staff member of the Studienwerk.

At each stage only a small group is selected for the next stage. You will be informed in writing of the decision reached at each stage of the selection procedure.

Stage 1: Submission of written application documents

The key criteria for assessing written applications and admission to the next stage of the procedure are:

- **Very good school or college/university academic record**
- **Social commitment and political interest**
- **Convincing reasons for applying to the Heinrich Böll Foundation**
- **German language proficiency (DSH 1 or Level B 2)**

Stage 2: Interview with a liaison lecturer

At this stage a **report** by the liaison lecturer is added to your application. It is based on **an interview of about an hour that the liaison lecturer** (appointed by the Heinrich Böll Foundation) **holds with you, as a rule, at the lecturer's place of residence in Germany. In exceptional cases the liaison lecturer may agree to hold a telephone or digital interview.**

The interview with the liaison lecturer will address the applicant's ability to study, his or her academic record and main areas of study, how he or she sees the study discipline in question and – in some cases – the applicant's social commitment and political interest and awareness.

The liaison lecturer will then write an expert report on the interview covering the above-mentioned points.

Stage 3: Digital interview with committee

On the basis of the liaison lecturers' and the quality of the exposé applicants will be invited to the 3rd selection stage, the digital interview with committee.

The main focus of the interview is to assess the applicants' professional and personal abilities as described in our Mission Statement on Promoting Young Talent (see www.boell.de/missionstatement).

NB: If you have already attended stage 3 and received a letter of rejection you may not re-apply.

3. Deadlines
