

LIKE THERE IS NO TOMORROW

The world's 35 largest private or state-owned coal producers by carbon dioxide and methane emissions, cumulative 1988-2013, in billion tonnes of CO₂-equivalent*

- Private firm (national)
- Private firm (multinational)
- State-owned company
- (former) nationalized industry

* The climate damage caused by methane is converted to CO₂ equivalent. Soviet Union 1988-1991, Russia, Ukraine and Kazakhstan since 1992. Czechoslovakia 1988-1992, Czech Republic since 1993
